

Welcome to the *New Headway Pre-Intermediate, fourth edition* Teacher's Resource Disc – the complete resource for communicative activities, testing, and continuous assessment, with materials that you can customize for your students and your teaching situation.

This CD-ROM works in two ways: **In your computer** it has communicative activities, tests, and continuous assessment materials. **In your CD player** it has listening test material to use in class.

The documents on this CD-ROM

Some of documents are provided as PDF files and others as both PDF and Word™ files (the content of these is the same). You can print out the PDFs and use them as they are. (If you don't have Adobe® Reader, get it from the Adobe® website.)

If you want to adapt the Word™ documents, you must first save them on your computer. You can then change them and save your changes, as with any Word™ document. If you have any problems opening the documents, go to the documents folder on the CD-ROM. All the documents can be printed out and/or photocopied for classroom use. They may not be sold without the permission of Oxford University Press.

Communicative Activities with new Customizable Worksheets

There are 24 Communicative Activities for you to print out and/or photocopy and use with your class, two for each unit in the Student's Book. Each activity has a clear lesson link to a Student's Book unit. The Customizable Worksheets allow you to modify each activity for your

students and your teaching situation. Click on the *Highlight fields* box in the top right corner to see where you can input new text, then type in your own content and print. All the Communicative Activities have step by step Teacher's notes with warmers, extension activities, and suggestions for how to use the Customizable Worksheets. 12 of the Communicative Activities are also found at the back of the Teacher's Book. The document *Introduction to Communicative Activities* gives additional suggestions on how to exploit the Worksheets.

Unit tests

There are 12 Unit tests, one for each unit in the Student's Book. There are two versions (A and B) of all these tests. If your students are unlikely to copy each other, you can simply use the A tests. If your students are inclined to copy one another, put them in pairs, one with an A test and one with a B test – this makes it more difficult for them to copy each other's answers. (The A and B tests cover exactly the same material, but the questions have been changed and/or reorganized.) An answer key is provided.

The Unit tests are also presented as Word™ documents which you can adapt to suit your needs. Copy them to your computer and remember to save your customized tests if you want to use them again.

Stop and check tests

There are three Stop and check tests, revising Units 1–4, 5–8, and 9–12. These can be set in class or given for homework. An answer key is provided.

Progress tests

There are two Progress tests, which cover Units 1–6, and Units 7–12. They can be used as mid-year and end-of-year tests. An answer key is provided.

Skills tests

The four skills of reading, writing, listening, and speaking are covered in these tests. The audio for the listening tests is included on the disc. To access the audio files, insert the disc into your CD player. Skills Test 1 covers Units 1–4, Skills Test 2 is a mid-term test and covers Units 1–6, Skills Test 3 covers Units 5–8, Skills Test 4 covers Units 9–12, and Skills Tests 5 is a final test and covers Units 1–12. There are two versions (A and B) of these tests. If your students are unlikely to copy each other, you can simply use the A tests. If your students are inclined to copy one another, put them in pairs, one with an A test and one with a B test – this makes it more difficult for them to copy each other's answers. (The A and B tests cover exactly the same material and the listening and reading texts are the same, but the questions in the listening, reading, and writing sections have been changed.) The tapescripts for the listening sections and an answer key are provided.

Exit test

There is an Exit test to help you assess students' level on completion of the course. An answer key is provided.

You can adapt the Exit test Word™ document to suit your needs by copying it to your computer. Remember to save your customized test to your computer if you want to use it again.

Student's Book Grammar Reference with Practice exercises

There is a PDF document of the *New Headway Pre-Intermediate, fourth edition* Student's Book Grammar Reference with Practice exercises for you to copy and give to your students. An answer key is provided.

There is also a Word™ document containing the Practice exercises only. You can customize these exercises to suit your needs by copying it to your computer. Remember to save your customized practice exercises to your computer if you want to use them again.

Tapescripts

These are the tapescripts for the Student's Book and Workbook, as well as the Skills tests. These are provided as PDFs and Word™ documents.

The document *Ideas for using tapescripts* provides useful ideas for customizing Word™ tapescripts and using them with your students.

Word lists

The word lists for *New Headway Pre-Intermediate, fourth edition* are provided as both unit-by-unit word lists, and as a complete A–Z word list.
